

CCN Annual Conference App Information

The CCN Conference App is available using the following links (depending on your phone type)

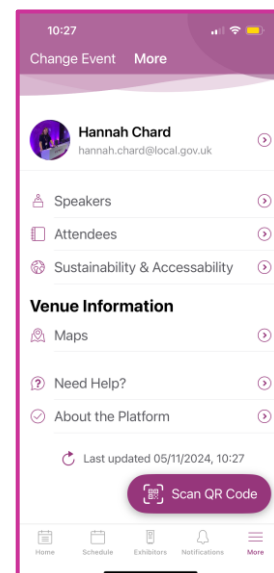

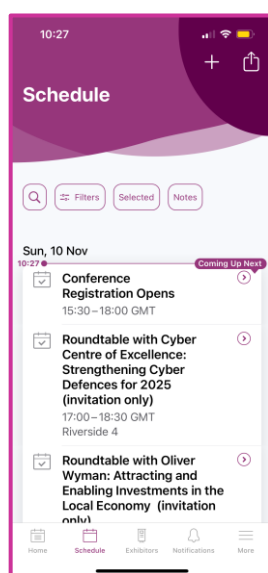

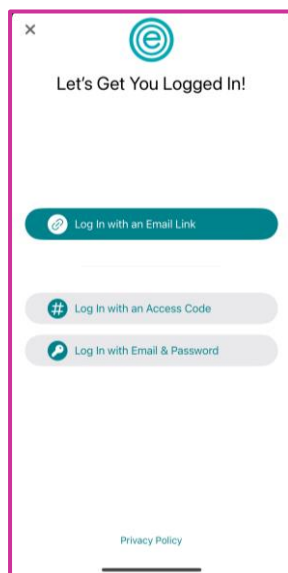

- Google: <https://play.google.com/store/apps/details?id=com.resultsdirect.eventsential.branded.ccn>
- Apple: <https://apps.apple.com/us/app/county-councils-network/id6715736377>

Please note the app is compatible with IOS 16 or Android 8.0 and above. If your phone is operating on an older system, you may want to update your software ahead of the conference.

If you have already downloaded the app you will have received an invite to your registered email with direct access to join the app. If you do not access the app via the button in the invitation email, you can request to login with an email link - shown in screenshot 1. If you have not received the email, please check your junk files, and then contact ccnevents@local.gov.uk.

How to access and manage your personal profile

To access your personal profile please visit 'more' located at the bottom right of the App. At the top you will see your name and email address, select this to change your details and add a photo should you wish. If you have already used an events app supported by EventForce, for example at the LGA Conference, your profile may already be registered on the system.

You are welcome to [download the agenda](#) as a PDF (website based) and save this to your device in advance.
